W0474	Policy Implementation	
	As a management assurance exercise, one policy is to be selected by each committee and its implementation is to be looked at in depth to establish that what is stated in the policy is what actually takes place. Focus policies are selected by the respective committee chairs and are an agenda item for each committee meeting this term. Mrs Korcz informed the committee that she had visited Mr Tarver and some students at the school to discuss implementation and impact of the 'English as an Additional Language' policy. The students were particularly positive about their experience - only wishing that there was more support as they found it so helpful. Mr Scott informed Governors that students for whom English is an additional language often have the biggest increase in their value added score at the end of Y11. Mrs Korcz found the visit to be very informative and was happy to reassure the committee that the policy works well and is being implemented in line with what is stated within it.
